Obtain an IBM Cloud Feature Code

[Bookmark this page](#)

To facilitate hands-on skills development and enable you to complete some of the labs in this course, we are providing you with a special feature code for IBM Cloud.

This feature code will enable you to either create an IBM Cloud account without a credit card, or extend the validity of your existing IBM Cloud trial.

Please check the box and click on the Open tool button below to obtain a unique Feature Code and copy it. You will be able to apply it using the instructions that follow in a subsequent lab in the course.

NOTE: If you have already applied your IBM Cloud feature code in another course/lab to create an IBM Cloud account or extend its trial, please skip this item, as the code can only be used once.

12. Review account privacy notice mark the checkbox then click on continue

the IBMid login service (i.e. IBMid is the authenticating agency).

If your account is created using an email address containing a domain owned by an organization which you are employed by, contracted to, or volunteer for, your organization can:

- inquire about the status of your ID
- request your account settings (including your personal information)
- at its option, convert it to an enterprise ID.

If your account was created as (or is converted to) an enterprise ID, your organization manages your account information. It is also the authenticating agency for your ID, meaning your access is controlled by your organization's login service.

The image shows two screenshots of the IBM Cloud user interface. The top screenshot is the 'Dashboard' page, which features a navigation bar at the top with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'Subhashree S's Account'. The main content area is titled 'Dashboard' and includes a 'For you' section with various tiles for getting started, monitoring resources, learning about Watson Machine Learning, viewing APIs and SDKs, learning about IAM Roles, creating a Kubernetes cluster, and creating and deploying an application. Below this, there are sections for 'News', 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. The bottom screenshot shows the 'Account settings' page. The left sidebar contains a navigation menu with options like 'Account', 'Account resources', 'Resource groups', 'Cloud Foundry orgs', 'Licenses and entitlements', 'Tags', 'Dashboards', 'Account settings' (which is highlighted), 'IBM Cloud Shell settings', 'Notification distribution list', 'Classic Infrastructure', 'Subscriptions', 'Audit log', and 'Company Information'. The main content area of the 'Account settings' page displays account information, including the account ID, type (Trial), and remaining trial days. It also features sections for 'Account upgrade' (Pay-As-You-Go and Subscription) and 'Subscription and feature codes'.

Dashboard

For you

Build
Explore IBM Cloud with this selection of easy starter tutorials and services.

Monitor your resources
Get visibility into the performance and health of your resources.

IBM Watson Machine Learning
Deploy, monitor and optimize machine learning models quickly and easily. Leverage auto-generated APIs to infuse AI into your applications.

View APIs and SDKs
View the API and SDK documentation for products and services in IBM Cloud.

Learn about IAM Roles
Learn about roles in IBM Cloud and how they work to control access.

Create a Kubernetes cluster
Automate deployments and manage your containerized apps in a native Kubernetes experience.

Create and deploy an application
Browse our starter kits, and then select one to jump start the process to create and deploy your app.

Get started with learning + Watson
Build, run and manage models. Prepare and build models any way you want using open source visual modeling. Fine tune and optimize your out
